Hoyl Model Portfolio 6

As of 30/09/2024

INVESTMENT OBJECTIVES AND POLICY

The investment objective of the Model is to generate income and capital growth over the medium to long term.

The Model will seek to achieve its objectives by investing in collective investment funds which will provide exposure to a diversified portfolio. The Model will have between 40% and 85% exposure to higher risk assets such as equities (and to an even lesser extent, alternatives such as property, infrastructure and commodities) and will have less emphasis on exposure to lower risk assets such as fixed interest investments (such as bonds, which may be government or corporate and vary in terms of investment grade credit ratings, including sub-investment grade to a limited

The value of investments, and the income from them, can go down as well as up, and you may not recover the amount of your original investment
